Index of Names Included in the Seventy-first Bibliography

The Roman figures followed by (1) or (2) refer to the centurial classification (Part I); thus, Adnan, A., XIV(1) means that a paper by Adnan is listed under fourteenth century, first half.

The Arabic figures refer to the historical and to the systematic classifications (Parts II and III) which are subdivided into sections numbered consecutively from 1 to 60. For instance, Ball, J., 2 indicates that a paper by Ball is listed in section 2 (Egypt); Barkov, A., 31 indicates that a paper by Barkov is listed in section 31 (Geography).

The symbols IV(a), IV(b), and IV(c) refer to the new sections on America, Australasia and Oceania, and Africa at the end of Part II. For instance, Collier, D., IV(a) indicates that a paper by Collier is listed in section IV(a) (America).

Index of Names Included in the Seventy-second Critical Bibliography

The Roman figures followed by (1) or (2) refer to the centurial classification (Part I); thus, Abdul Hamid K., X(2) means that a paper by Abdul Hamid is listed under tenth century, second half.

The Arabic figures refer to the historical and to the systematic classifications (Part II and III) which are subdivided into sections numbered consecutively from 1 to 60. For instance, Adivar, A. A., 14 indicates that a paper by Adivar is listed in section 14 (Islam); Alders, J. G., 16 indicates that a paper by Alders is listed in section 16 (History of Science).

The symbols IV(a), IV(b), and IV(c) refer to the new sections on America, Australasia and Oceania, and Africa, at the end of Part II. For instance, Barkhuus, A., IV(c) indicates that a paper by Barkhuus is listed in section IV(c) (Africa).
